Charles Dickens is one of the greatest writers in the English language. His father had a good job in an office in London, but he always spent more money than he got. There were eight children in the family, so it was a hard life. Charles went to school and he was a clever student. Suddenly when he was eleven years old, his father went to prison and the family went too, but Charles went to work in a factory where he washed bottles. He worked ten hours a day and earned six pounds a week. Every night after work he had to walk ten miles to return home, and he had little food to eat. Charles hated those days and never forgot them.

Suppose that you have a very small vocabulary. Also suppose that you don't know how to get the meanings of new words. When you come across an unfamiliar word, that word may stop your understanding of the passage. Your eyes pause too long on the word as you try to get its meaning. You go back and read the word again, try to get its meaning from the context. As a result, you read much more slowly than you should, and you find that the difficult word is a wall to your comprehension. Suppose that you know many words and you are skilled in finding the meanings of new words. Your eyes move quickly and you read rapidly. You comprehend what you are reading. If you have a good vocabulary, you are more interested in reading.

۹۴ What may happen when you come across an unfamiliar word?

۹۵ How does having a good vocabulary influence your reading habit?

۹۶ What is the closest synonym for the word "suppose"?

- 1) believe                      2) accept                      3) understand                      4) imagine

۹۷ Unknown words in a passage may make comprehension easier.

The research for new sources of energy has led into various ways. To produce any type of energy, the resources of the earth are used. The main resources of the earth are fossil fuels such as natural gas, oil and coal. Electricity is generated from coal, oil and natural gas, but the process has been proven to be expensive.

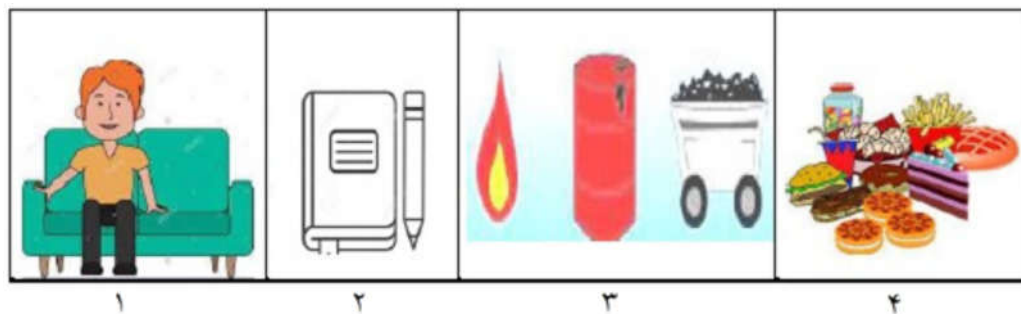

Experimental works are in progress to produce energy from other resources. Scientists and experts spared no pains to search for new ways of producing new source of energy. For instance, electricity has been produced with giant wind turbines. Geothermal power or the heat from the earth is also being tested to produce energy. Many societies are burning rubbish and other biological waste products to generate electricity. Not only changing unwanted products to gas or oil is a cheap way to produce energy, but also it is an effective way to get rid of waste.

Some experts expect service companies to expand hydroelectric power generated from streams and rivers. As an example, 50 years ago hydroelectric power provided one-third of the electricity used in the United States but today it includes only 4%. The oceans are another possible source of energy. Scientists are studying ways to change the energy of oceans' tides and waves into electricity. Experiments are also underway to make use of temperature differences in ocean water to produce energy.

Clean energy resources are vastly respected, valued, and used all over the world to keep the environment clean. As a result, scientists try to introduce new types of energy resources called clean energy resources to nations of the world.

It is very important for us to respect our elders. It is also important to note that elders were not born elders; they were kids like us and now have grown old. A few years hence we will also grow elder. If today we respect them, our present and future generations will carry those values and will learn to respect us as well when we grow old.

Elders have a lot to share with us: their life experiences, their failures, their successes and many more. Thus, we need to care for them because they deserve to be cared for. Respect and care for elders starts with our parents, as they are our first teachers in our life.

No matter what we do in our lives, who we are, and where we live, we must love as they love us unconditionally. They feel honored when we appreciate their love and respect them.

۱۱۲ It is important to remember that elders were not born elders.

- a) True                      b) False

۱۱۳ The passage says that elders have nothing to share with us.

- a) True                      b) False

۱۱۴ What does "they" in the third line of paragraph 2 refer to?

- 1) future generations                      2) parents  
3) teachers                                      4) lives

۱۱۵ Answer the question.

How do elders feel when we appreciate their love?

In many cultures around the world, elders are highly respected. They are seen as the keepers of wisdom and are asked for advice and guidance in all areas of life.

In Norway, a program called "Old Friends" pairs older adults with younger people for regular social activities, such as going for walks or cooking together. The program has had significant success in reducing loneliness and social isolation among older adults.

According to research, Japan has one of the longest life expectancies (the length of time that someone is likely to live) in the world, with many elders living beyond 100 years. One reason for this is the respect they receive from younger generations. Respecting elders not only benefits the elderly but also has a positive impact on younger generations. By learning from elders, younger people gain valuable knowledge and insights that can help them manage life's challenges. For example, a study found that young people who spent time with elders had a more positive view on life and were more likely to value social relationships.

۱۳۱ According to the text, younger people are seen as the keeper of wisdom.

a. True b. False

۱۳۲ Respecting elders has a positive effect on younger generations.

A collocation is two or more words combined together. These combinations sound natural to native speakers, but students of English have to learn them with exercise because they are often difficult to guess. The unnatural combinations are wrong for native speakers of English. As an example, the adjective "fast" collocates with "cars" but not with "look". Learning collocations is the most important part of learning the vocabulary of a language. Some collocations seem fixed or very strong. In "take a photo", no word other than "take" collocates with the photo to give the same meaning. The other example is "make an effort" and not "do an effort".

Some collocations are more open, because several words may go together to give a similar meaning, for example, "keep to or stick to the rules". Sometimes, a pair of words may not be wrong, and people will understand it, but it may not be the natural collocation. If someone says I did a few mistakes, a fluent speaker of English may understand, but it would probably say, "I made a few mistakes".

۱۳۷ True / False

- 1) A word that is often used naturally is called collocation.
- 2) In learning the words of a language, learning collocation is important.

۱۳۸ Which of the following is NOT true about collocation?

- 1) Learning collocations is important.
- 2) Collocations can be learned by practice.
- 3) Collocations are natural to native speakers.
- 4) Guessing collocations is always hard for all.

۱۳۹ According to the passage, which of the following is a natural collocation .....

- 1) I did a few mistakes
- 2) I did an effort
- 3) fast cars
- 4) fast look

۱۴۰ Why are some collocations called more open?

۱۴۱ What is a collocation?

- 1) You can send a message to him, ..... you can call him.
- 2) I wanted to watch the movie, ..... my brother wanted to watch the game.
